Keep Your TRU Running Strong
Powered by the Sun

50W TRU Door-Mounted Solar Panels

A perfect fit that looks OEM
Not an afterthought

Give your TRU a clean, modern look while eliminating battery issues for good. Our door-mounted solar panels are purpose-built for transport refrigeration units, delivering dependable power and long-term savings.

Key Benefits

Stops Parasitic Battery Drain
Your TRU has constant electrical loads even when parked. Our solar panels supply steady power to offset these parasitic draws

No More Dead or Boosted Batteries
Whether sitting at a warehouse, yard, or waiting for backhaul, the solar kit keeps your TRU battery fully charged so you can start the unit anytime without boosting

Extends Battery Life
Maintains optimal battery charge levels, reducing deep discharge cycles — the main cause of premature battery failure

Custom-Shaped, Clean Appearance
Engineered to follow the contours of the TRU door, giving fleets a sleek, professional look that stands out on the road or at customer locations

Your TRU is only as dependable as its battery. Keep it charged, protect your equipment, and eliminate costly service calls with our precision-designed TRU Solar Kits.
